Ransomware, DDoS attacks, data breaches and cyber crime—intensifying threats are putting your data, operations and reputation at risk.

In today’s high-stakes, rapidly evolving digital world, regulatory compliance, customer confidence and the bottom line depend on your organization getting cyber security right. Presidio delivers through a comprehensive approach to cyber security and risk management.

As an extension of your IT operations, we deliver support across the full cyber security lifecycle.

**ADAPTIVE STRATEGY**
Get expert guidance on cyber security strategy and governance, regulatory compliance, policy and procedures, security awareness and training, architecture and next generation risk management.

**ADAPTIVE ARCHITECTURE**
Achieve a scalable security architecture/roadmap, including cloud and IoT security, through firewall analysis, device hardening, control recommendations, active directory analysis and PKI assessment.

Build and strengthen application, network, data, endpoint, cloud and physical security.

**ADAPTIVE TESTING**
Gauge risk and preparedness through vulnerability assessments, penetration testing, red & red/blue team scenarios and comprehensive security analyses. Check compliance with HIPAA, PCI, GDPR, (NIST Cyber Security Framework, NIST 800-53, NIST 800-171) and ISO 27001 regulations and standards, plus all 20 CIS controls.

**ADAPTIVE SECOPS**
Get 24x7x365 next generation risk management that includes device management, threat intelligence and incident response, plus security event and information management that uses event correlation and analysis and machine learning technology.
MANAGING RISK, MAXIMIZING SECURITY, COMPLIANCE AND CONTINUITY

Legacy architecture isn’t enough to safeguard mobile devices, IoT networks and cloud data. And reactive solutions won’t give your organization the comprehensive, continuous protection it needs to stay compliant, maintain business continuity and anticipate threats on the horizon.

For over a decade, our expert teams have helped leaders in retail, education, healthcare and government protect data, manage risk and integrate security into their business operations.

MAKING CYBER SECURITY WORK FOR BUSINESS

Experts in strategy and technology, they’ll work with you to get buy-in from key stakeholders and help you incorporate cyber security into your strategy, compliance and governance operations.

COMPREHENSIVE COMPLIANCE KNOWLEDGE

Presidio keeps current on industry frameworks, regulations and standards including:

- HIPAA
- PCI
- CIS 20
- ISO 27001
- NIST CSF, NIST 800-53, NIST 800-171

Our cyber security consulting professionals are certified in the standards of your world, including ISC², SANS, ISACA and PCI. And they’re vendor-agnostic, enabling them to deliver guidance and solutions across the range of manufacturers.

To maximize scalability, sustainability and success, Presidio looks at risk strategically and takes an iterative approach to risk management and continuous threat assessment. This includes:

- Assessing legacy IT systems and the full landscape of threats, vulnerabilities and compliance requirements
- Architecting a solution that draws from the best practices and technologies in the marketplace
- Implementing and maintaining capabilities for continuous monitoring and response
- Helping to make cyber security part of an organization’s culture through policies, procedures, education and awareness

If you don’t have the internal resources for ongoing cyber security management, or aren’t sure where to begin with your architecture or plan, call Presidio.
