

## PROVIDING OUR CUSTOMERS WITH THE PROCUREMENT OF HARDWARE, SERVICES AND LOGISTICS GLOBALLY

### THE PRESIDIO PROMISE

Presidio helps global organizations address various procurement, logistics and service issues by providing innovative, practical solutions, efficiency, control, risk mitigation, and visibility, all supported via our global team and expertise. We have a dedicated team of global commerce and logistics professionals to assist with any unforeseen roadblocks or challenge. Because we operate from the core belief that you, the client, are vital to every phase of the project, our Strategic Engagement Framework fosters a teaming approach during each phase of the project life cycle. With Presidio, you have a partner that delivers practical and sustainable value through people, process, and technology. Our global services are truly unique, offering you that one single point of contact. At Presidio, we guarantee a world-class customer experience that will exceed your expectations.

### OUR FOOTPRINT

Presidio knows global business and our Global Team understands the complexities and intricacies of global procurement.

### OUR TRANSACTION MODELS

Choosing the right procurement model is dictated by where the budget is held, import restrictions taxes and duties. Presidio has developed a number of procurement models to mitigate risk and VAT exposure. Where Presidio does not have a direct presence in country a preferred partner is selected to fulfill orders, provide services and direct billing on behalf of Presidio. Whether the budget or supply of goods is centralized or de-centralized Presidio will help you decide on which transaction model to utilize when making an international purchasing decision.
