

Data & Analytics RightStart on AWS

Business Outcomes
@Consumer Speed

Collecting data is easy. In fact, it's practically unavoidable. The ability to structure it, organize it, and gain actionable visibility into it is where the rubber meets the road. Presidio Cloud Solutions Data & Analytics practice gives companies the insight and predictive capabilities they need to elevate a good idea into a market-leading phenomenon.

Our Approach

Outcome-Driven RightExperience

We believe success means delivering the right outcomes to our clients to meet their immediate business needs while ensuring their project or product can scale and innovate as their business grows. We don't just meet technology requirements. We make sure that we understand the business goals, industry trends and competitive landscape to customize our technology solutions to meet each customer's unique needs.

When spoiled for choice in a world of countless technology options and implementation strategies, finding the right fit can be a headache. Our team has the acumen to help navigate the technical landscape and we work closely with clients to conquer analysis paralysis. It's all about understanding the business need so that we can deliver solutions that disrupt our client's industry.

RIGHTSTART METHODOLOGY

Ideate & Gather

Workshop with business technology stakeholders to compile the business needs, key aspects of the technology that needs to be evaluated, iterate few high level ideas and options, build consensus for the success criteria.

Design & Align

Elaborate design, develop architecture and document preferred approach when multiple options are available. Conduct a review workshop with the key outputs of the design and build consensus on timelines & dependencies.

Build & Test

Iteratively build the proof of concept and if needed, build with multiple approaches, the DevOptimized™ way! Even at a proof of concept stage, it involves automated builds, validation of API layers, auto scaling, basic monitors.

Measure & Deploy

Deploy the application to a subset of users, gather metrics, validate against the metrics. Provide next steps and guidance on adoption of the technology at a larger scale.

OUR SERVICES

Presidio Cloud Solutions Data & Analytics practice offers everything from Data & Analytics on-demand consulting to full transformation services.

Data Migration

Transfer your data from one platform to another with confidence. Our automation tools and methodologies ensure your data arrives at its destination intact.

Enterprise Data Warehouse

Take control of your data, from structuring and organizing vast data sets to instituting governance that traces data lineage, promotes security, and ensures accuracy.

Prescriptive Analytics

Determine the best course of action using predictive modeling. Put your data to work for you to cut costs, assess risk, and evaluate efficiencies.

Advanced Analytics

Artificial Intelligence and Machine Learning give you a window into the future. Leverage tools including Amazon SageMaker to uncover trends, events, and behaviors that will help you calculate your next move.
