

Beware of Ransomware, Stay Prepared with the Right Defense

Armed with the right security solution, you can stop ransomware before it stops you.

In partnership with SentinelOne, Presidio can help you prevent, detect, and respond to ransomware attacks at machine speed.

SentinelOne, The Power of One in 4 Key Components

PREVENTION
AI-powered models identify malware and ransomware binaries before they detonate with high degrees of precision.

IOT
Ranger® IoT rogue device discovery provides visibility into all managed and unmanaged network devices and control over those devices.

ActiveEDR
Build critical context for proactive real-time detection and response and long-term threat hunting in a user-friendly fashion.

WORKLOADS
Migration of workloads is a key part of your digital transformation, offering complete protection, visibility, and control.

Secured by a **\$1 Million Guarantee**

If you do suffer an attack, SentinelOne's cyber threat protection warranty program provides customers with financial support of \$1,000 per endpoint, or up to \$1 million per company, if you suffer an attack and SentinelOne is unable to block or remediate its effects.

Our purpose is to protect companies from the worst, by providing both the tools needed to find and mitigate threats in an ever-evolving threat landscape, as well as financial security for the worst-case scenario.
