## vCISO Advisory Services

**THE CHALLENGE**

The evolving cybersecurity landscape combined with rapidly growing security requirements, regulations, and threats organizations are facing today are daunting. A lack of experienced cybersecurity leadership within an organization can make the adoption of fundamental cybersecurity practices and principles extremely challenging.

**THE SOLUTION**

Presidio's Virtual Chief Information Security Officer (vCISO) Advisory Services provides critical guidance in these challenging times. Presidio's seasoned Executive Cybersecurity Advisors bring the same expertise and knowledge as a traditional CISO plus access to highly specialized resources for the full range of cybersecurity needs including:

- ◆ Creation of a Cybersecurity Strategy and Objectives
- ◆ Security Program Development
- ◆ Information Security Policy and Standards Development
- ◆ Regulatory, Compliance, Privacy, and Contractual Oversight
- ◆ Risk Prioritization
- ◆ Executive and Board Level Reporting & Metrics
- ◆ Managed Security Services
- ◆ Breach Remediation and Incident Response

Presidio's vCISO Advisory Services enables organizations to effectively prioritize and tackle critical cybersecurity initiatives and challenges. vCISO Services are guided by industry experts to establish a baseline of existing security capabilities, targeted level of maturity, and a roadmap to achieve cybersecurity confidence.

Presidio's vCISO Advisory Services provide the leadership needed to establish a risk management strategy, prioritize

cybersecurity investments, and facilitate implementation, designed to fit each client's specific needs.

**KEY BENEFITS**

Presidio's vCISO services can accelerate a client's identification and implementation of the Governance, Risk and Compliance (GRC) goals for their business. This would allow a time-boxed approach to assist a customer in achieving information security goals that are aligned to the business such as achieving SOC2, or NIST 800-53 compliance.

**Presidio's vCISO services address key challenges for clients:**

-  After a breach to get the client back on track with remediation efforts
-  Augment a current CISO as an advisor and second set of independent eyes
-  Full business critical management of a client's cybersecurity environment

**Presidio's vCISO Advisory Services offers a cost-effective agile approach that adapts to evolving cybersecurity requirements.**

- ◆ Access to a deep bench of cybersecurity technology platforms, subject matter experts and a pool of diverse Presidio services
- ◆ Visibility into risk exposure, program maturity, regulatory, privacy, and contractual obligations such as PCI, HIPAA, SOC2, CMMC, and NIST 800-171
- ◆ Organization-wide cybersecurity program development anchored in industry frameworks, standards, and best practices with alignment to business goals and objectives
- ◆ Unbiased, independent cybersecurity leadership and executive reporting
- ◆ Mentorship for cybersecurity leaders
