

PRESIDIO®

RECLAIM THE ADVANTAGE

Stop Advanced Threats Faster with Cloud-Native Network Detection & Response

84%

Reduction in time to threat resolution

\$630K

Reduced cost of third-party solutions

165%

Return on investment (ROI)

ExtraHop is on a mission to stop advanced threats with security that can't be undermined, outsmarted, or compromised. Our Reveal(x) 360 platform helps organizations detect and respond to advanced threats—before they can compromise your business. We apply cloud-scale AI to petabytes of traffic per day, performing line-rate decryption and behavioral analysis across all infrastructure, workloads, and data-in-flight. With complete visibility from ExtraHop, organizations can detect malicious behavior, hunt advanced threats, and forensically investigate any incident with confidence.

ELIMINATE BLIND SPOTS WITH COMPLETE COVERAGE

Automatically discover and classify every asset in your enterprise. ExtraHop Reveal(x) 360 monitors all communications, connections, applications, users, and dependencies for complete visibility of everything that matters to your business.

DETECT THREATS OTHER TOOLS MISS

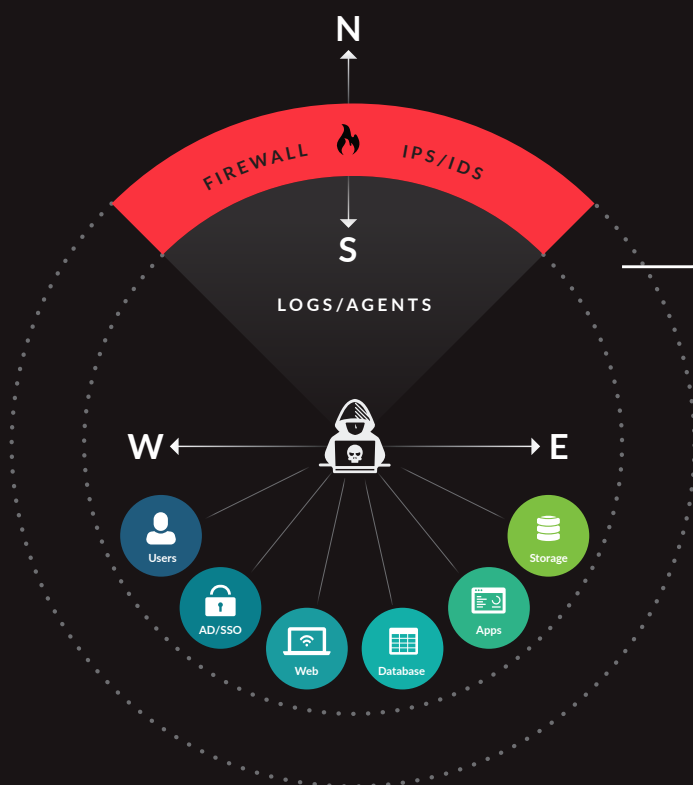

With advanced machine learning and artificial intelligence, quickly identify threats and anomalies based on behavior, with high fidelity. Real-time SSL/TLS decryption spots attackers hiding in seemingly legitimate traffic.

RESPOND 84% FASTER

Validate, triage, investigate, and establish root cause in hours instead of days. Intelligent workflows take you from detection to forensics in a single click, while response automations help you stop threats in their tracks.

NAVIGATING A POST-COMPROMISE WORLD

Cloud adoption, hybrid remote workforces, and exponential increases in device connectivity have rapidly expanded the enterprise attack surface. Nation-states, cybercriminals, and even insiders are taking full advantage of what you can't see.

70% DARKSPACE

Attackers bypass defenses and have free rein

67% ENCRYPTED TRAFFIC

Malicious traffic is often encrypted

56 DAYS OF DWELL TIME

Median before attackers are found

72% DESTRUCTION OF LOGS

Attackers easily cover their tracks

```
meterpreter > run clearlogs
Clearing event logs, this will leave an event 517
[*] Clearing the security Event log
[*] Clearing the system Event log
[*] Clearing the application Event log
[*] Clearing the directory Event log
[*] Clearing the dns server Event log
[*] Clearing the file replication service Event log
All Clear! You are a Ninja!
meterpreter >
```

FEWER ACRONYMS, BETTER SECURITY

ExtraHop Reveal(x) 360 provides detection and response across the entire attack surface to defend against advanced threats, reduce tool sprawl, and increase efficiency across teams.

Get Complete Coverage

Network detection and response finds malicious activity and allows SOC teams to hunt down threats fast.

Detect Threats Other Tools Miss

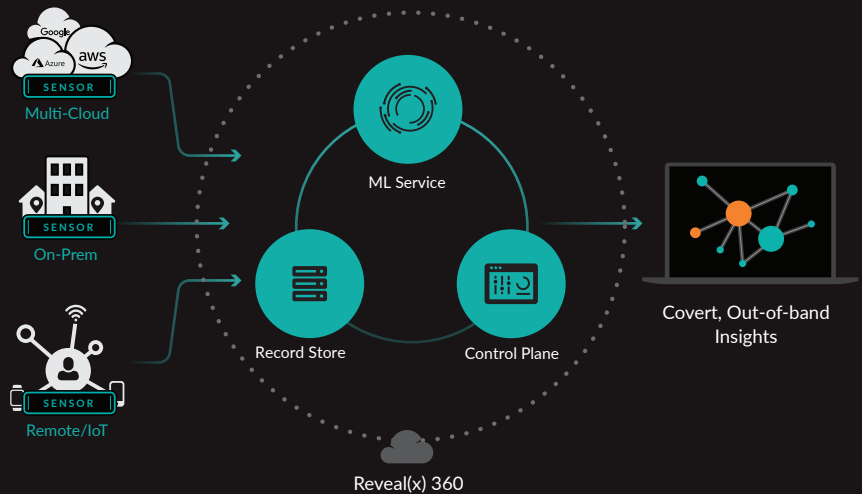

Intrusion Detection identifies CVE exploits, detects protocol abuse, and spots unknown threats.

Respond Faster

Network forensics and packet capture let security teams investigate breaches and get to ground truth.

THE EXTRAHOP DIFFERENCE

Unlike logs, which can be erased, or agents, which can be disabled, ExtraHop Reveal(x) 360 passively observes everything on the network and instantly detects malicious activity like lateral movement, command and control, and privilege escalation. We expose the anomalous behavior happening inside of your environment and give you the evidence you need to investigate and remediate it fast—before it can compromise your business.

Cloud-Delivered Intelligence

Zero-overhead SaaS platform continuously updates to address emerging threats.

Unmatched Enterprise Scale

Cloud-scale AI, line-rate decryption and unified management across the attack surface.

World-Class SOC UX

Powerful workflow delivers complete visibility, real-time detection, and automated response.

INNOVATING AT THE FOREFRONT OF A GROWTH MARKET

NDR Leads in Security

Second fastest growing market in security

Gartner, Information Security and Risk Management, Worldwide, 2018-2024, 3Q20 Update

ExtraHop Leads in NDR

Outpaced all players in CAGR

Gartner, Market Share Analysis: Enterprise Network Equipment, Worldwide, 2020

Unparalleled visibility and detection through machine learning. A security must-have.

RETAIL

The tool has allowed us to assess the connectivity of all our applications and help speed our migrations to AWS.

FINANCIAL SERVICES

The most advanced networking/security technology in the game of IT thus far!

HEALTHCARE

A LEADER IN NDR MARKET SHARE

ABOUT EXTRAHOP NETWORKS

Cyberattackers have the advantage. ExtraHop is on a mission to help you take it back with security that can't be undermined, outsmarted, or compromised. Our dynamic cyber defense platform, Reveal(x) 360, helps organizations detect and respond to advanced threats—before they compromise your business. We apply cloud-scale AI to petabytes of traffic per day, performing line-rate decryption and behavioral analysis across all infrastructure, workloads, and data-in-flight. With complete visibility from ExtraHop, enterprises can detect malicious behavior, hunt advanced threats, and forensically investigate any incident with confidence. ExtraHop has been recognized as a market leader in network detection and response by IDC, Gartner, Forbes, SC Media, and numerous others.

When you don't have to choose between protecting your business and moving it forward, that's security uncompromised. Learn more at www.extrahop.com.
