Cybersecurity

CSF360 Cybersecurity Workshop

THE CHALLENGE

Organizations need a comprehensive approach to cybersecurity, but it is challenging to know where to begin. With multiple, overlapping tools deployed in the enterprise, it can be difficult to see the whole picture. Cybersecurity talent and leadership are tough to recruit and retain. Frequent turnover has caused many gaps in enterprise strategies and solutions.

THE SOLUTION

The Presidio National Cybersecurity Team has developed a free CSF360 Workshop. The Cybersecurity Framework Workshop is based on the NIST-CSF Framework and designed to help document and provide a consultative, flexible and comprehensive approach to security operations enterprise-wide.

Cybersecurity experts from Presidio lead a high-level discussion to identify risks and opportunities to improve a client's cybersecurity posture. We will lead a discussion and interview your team in a group setting. Our experts will help you find the gaps in your security technology solutions and business processes. We will document our findings in a live whiteboard session and provide our expert recommendations to improve security operations enterprise-wide.

The Presidio CSF360 Cybersecurity Workshop explores all areas of a client's cybersecurity situation. It forms the foundation of a deeper discussion of potential risk elements.

◆ Uses the industry standard NIST Framework methodology to help gauge client's cybersecurity maturity

◆ Brings together stakeholders from multiple IT disciplines to discuss key cybersecurity initiatives

◆ Helps the client gain a 360-degree view of their cybersecurity posture in just a few short hours

◆ Provides a high-level deliverable upon Workshop completion with recommended actions

The Presidio CSF360 Cybersecurity Workshop is generally completed in 2-4 hours with the participation of key stakeholders in the company.
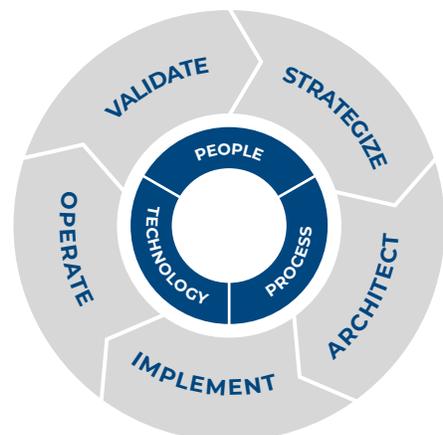

KEY BENEFITS

Clients who engage with Presidio's CSF360 Workshop have dramatically enhanced their cybersecurity posture.

◆ Companies that may have a security project roadmap but no formal way of measuring progress

◆ Companies that have done self-assessments but would like another pair of eyes to review their efforts

◆ Companies that have policies but may not be following them as closely as they would like

◆ Companies that have regulatory concerns

They have created consensus across their organization about the people, processes and tools required to protect their business.

◆ Security Leadership: CISO, CSO, CIO, CXO

◆ Security Team: Architecture, Engineering, Operations, SOC, Analyst

◆ Networking Team, Firewall Admins

◆ Data Center Team, Directory Server Admins, Email, Identity, Access

◆ Application Team, DevOps, SRE

CSF360 Cybersecurity Workshop

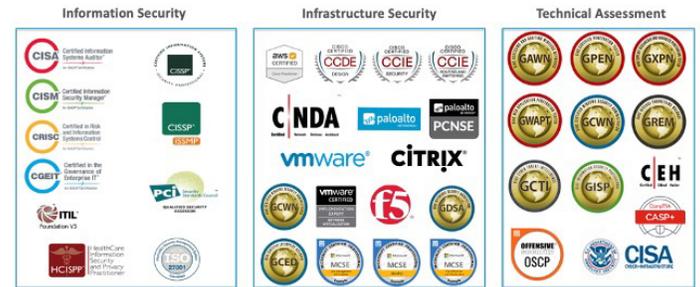

Experience, Education, and Expertise

With a short investment in time and exploring the current situation, clients will benefit from having a common ground for cybersecurity risk management.

- A list of Cybersecurity activities that can be customized to meet the needs of any organization
- A complementary guideline for an organization's existing cybersecurity program and risk management strategy
- A risk-based approach to identifying cybersecurity vulnerabilities
- A systematic way to prioritize and communicate cost-effective improvement activities among stakeholders
- A frame of reference on how an organization views managing cybersecurity risk management

WHAT MAKES US DIFFERENT

Presidio is a trusted partner to our clients, securing their infrastructure, employees, clients, and assets from ever-growing cyber threats. Our clients trust Presidio:

- **Highly Experienced team** – Presidio's highly-credentialed cybersecurity consultants collectively have decades of combined practical experience spanning cyber security governance, architecture, and operations
- **Proven Cyber Leadership** – Presidio has 15+ years of providing cybersecurity leadership and securing our nations' most sensitive networks with specialization across many of the largest industry verticals
- **Business Enablers** – We understand cybersecurity should reduce risk to enable the success of your business, not serve as a roadblock to your success

WHY PRESIDIO

Presidio is a leading digital systems integrator, with deep experience in networking, cloud computing and broad hybrid infrastructures. Presidio recognizes that cybersecurity is foundational to the success of any business and has a highly specialized expert team at the ready. Our clients benefit from:

- Services methodology built on recognized industry standards including NIST, CIS, and ISO
- Compliance depth & breadth including PCI, HIPAA, NERC CIP, GDPR, CCPA, SOC 2, ISO 27001, DFARS 800-171, CMMC
- Multi-discipline experts provide for a broad view of client's potential vulnerabilities
- Deep cybersecurity services bench and broad security services solutions provide domain expertise and consistent deliverables

Presidio Cybersecurity Practice covers a broad security services portfolio. Our highly skilled and tenured cybersecurity practitioners maintain leading industry certifications, provide thought leadership and practical industry experience. We have conducted thousands of engagements across all major industry segments. Getting started with Presidio is easy. Let's explore how we can secure your business.
