THE CHALLENGE
Cybercrime is top of mind for enterprises of every size, in every industry. The perimeter is limitless, with operations supporting access from anywhere, at any time. The threat landscape continues to expand exponentially each day with ransomware becoming one of the largest global industries. Meanwhile, there is a scarcity of skilled staff to implement Cybersecurity solutions, operate them, and respond to threats.

THE SOLUTION
The Presidio Cybersecurity Practice covers a broad security services portfolio. Our highly skilled and tenured Cybersecurity practitioners maintain leading industry certifications, and combine thought leadership with practical industry experience.

Presidio Cybersecurity solutions help clients:

Develop Security Strategy
- Governance, Risk and Compliance (GRC)
- Advisory Services
- Security Program Maturity
- Standards and Frameworks

Modernize Architecture
- Zero Trust Architecture
- Identity and Access Management (IAM)
- Secure Edge
- Cloud and Network Infrastructure

Reduce Risk
- Secure Operations (SecOps)
- Resilient Architecture
- Posture Validation
- Managed Detection and Response (MDR)

Respond to Threats
- Incident Response
- Incident Preparedness
- Mitigation and Containment
- Restore Operations
KEY BENEFITS
Presidio rapidly identifies and resolves threats. We align with industry-leading frameworks and help you meet regulatory requirements. Our expert team delivers gap analysis, playbooks and processes, testing and validation, equipment selection and implementation, and overall systems management. When a new threat appears, Presidio will contain it and every Presidio managed Cybersecurity client is automatically protected.

WHAT MAKES US DIFFERENT
Presidio is a global digital services and solutions provider accelerating business transformation through secured technology modernization. Highly skilled teams of engineers and solutions architects with deep expertise across cloud, security, networking, and modern data center infrastructure help customers acquire, deploy, and operate technology that delivers impactful business outcomes. Presidio is a trusted strategic advisor with a flexible full lifecycle model of professional, managed, and support and staffing services to help execute, secure, operationalize and maintain technology solutions.

Experienced Team – Presidio’s highly-credentialed Cybersecurity consultants boast decades of combined practical experience spanning Cybersecurity governance, architecture and operations.

Business Enablers – Presidio understands Cybersecurity should reduce risk to enable business success, not serve as a roadblock to success.

Services Led Initiatives – Presidio has deep knowledge in the people, process and technology that are the foundation of a scalable, strong Cybersecurity strategy covering every aspect of digital operations.

Best-of-Breed – Presidio maintains a vendor-agnostic approach focused on optimizing tools that are currently deployed. When architecting new solutions to improve maturity and close gaps to meet business requirements, Presidio is strategically aligned with the most respected vendors in the security landscape.

True End-to-End – Cybersecurity is no longer a siloed or niche internal department; everyone in the organization plays a role in security. Presidio brings in-house expertise and proven methodologies in Cybersecurity, Infrastructure, Cloud, DevOps and application development. We put business needs before any particular product or vendor.
