Zerto

www.zerto.com

MANUFACTURER OVERVIEW

The Zerto Platform is based on a foundation of continuous data protection (CDP). It delivers cloud data management and protection with a simple, scalable platform built for virtualized and container-based environments running on-premises or in the cloud. Zerto delivers numerous benefits to IT organizations managing data and applications on-premises or in the cloud. This includes continuous data protection, hybrid and multi-cloud agility and simplicity at scale.

DISCOUNT STRUCTURE AND CATEGORIES

Type	Discount	Description
Monitoring & Management Solutions	30%	May include software or appliances operating at any layer in the OSI model: 1. Solutions should accomplish the centralization and interpretation of data acquired from networked devices; 2. Solutions should be developed around commonly accepted methodologies and should make use of the newest versions of SNMP and/or TLS; 3. Solutions must enhance security, manageability, and accountability; 4. Solutions interface should be an intuitive GUI, with possible built in CLI and manual configuration abilities; and, 5. Reporting and analysis tool must include canned reports for regulatory compliance with HIPAA, etc.
Notes		One Platform for Cloud Data Management and Protection.
