User Counts

User counts for all modules and their core product must match, with the exception of Forcepoint Remote Filter Client and Forcepoint Email Security Encryption Module. They may have fewer users or seats than their core product, but not more.

Core Products

Core Products include: Forcepoint Web Security, Forcepoint URL Filtering, Forcepoint Email Security, Forcepoint Remote Browser Isolation, Forcepoint Private Access, Forcepoint DLP Suite, Forcepoint DLP Endpoint, Forcepoint DLP Network, Forcepoint DLP Discover, Forcepoint Insider Threat, Forcepoint Dynamic User Protection, Forcepoint Behavioral Analytics (FBA), and Forcepoint Malware Detection On-Premises.

Cloud Web Extended Reporting History

Cloud Web Extended Reporting History 6 months, 12 months, and 18 months, requires a Cloud deployment when added to Forcepoint Web Security.

Forcepoint Data Protection Service

FDPS is an optional Add-On for Forcepoint Web Security – Hybrid deployments. It provides FDPS for Hybrid Web traffic.

As FDPS includes Forcepoint Web Security DLP Module capabilities for On-Premises traffic, customers do not require a separate WDLPX subscription.

Minimum order quantity is 501 users.

Forcepoint Web Security DLP Module

On-Premise or Hybrid deployment enables data protection for on-premise users only.

Hybrid customer wishing to extend data protection to include roaming users require the Forcepoint Data Protection Service and should use FDPS add-on instead.

Cloud deployment of this module enables the Forcepoint Data Protection Service for cloud web users only.

Advanced Malware Detection Cloud - Web

Advanced Malware Detection Cloud - Web can be purchased with any deployment option: On-Premises, Hybrid, or Cloud when added to Forcepoint Web Security.

DLP for Cloud Email

DLP for Cloud Email is an outbound only DLP scanning service for email. Extended reporting, Advanced Encryption and Image Analysis modules can also be purchased.

DLP for Cloud Email has a minimum order quantity of 501.

DLP for Cloud Email Plus

DLP for Cloud Email Plus is an outbound DLP scanning service for email and additionally provides the inbound email hygiene. Extended reporting, AMD, Advanced Encryption, and Image Analysis modules can also be purchased.

DLP for Cloud Email Plus has a minimum order quantity of 501.

Cloud Email Extended Reporting History

Cloud Email Extended Reporting History 6 months, 12 months, and 18 months requires a Cloud deployment when added to Forcepoint Email Security.

Advanced Malware Detection Cloud - Email

Advanced Malware Detection Cloud - Email can be purchased with any deployment option: On-Premises, Hybrid, or Cloud when added to Forcepoint Email Security.

Forcepoint Email Security Encryption Module

Forcepoint Email Security Encryption Module requires either a Cloud deployment or Hybrid deployment when added to Forcepoint Email Security.

Forcepoint Email Security Image Analysis Module

Subscriptions to Image Analysis Module can be purchased with Forcepoint Email Security only.

Forcepoint Email Security Image Analysis Module requires either a Cloud deployment or a Hybrid deployment when added to Forcepoint Email Security.

Advanced Threat Protection Web

Forcepoint Web Security Bundle that includes Forcepoint's Advanced Threat solutions. Bundle includes:

  WBSA - Forcepoint Web Security (Minimum quantity 100)

  FSBXX - Forcepoint Advanced Malware Detection – Cloud (User count must equal Forcepoint Web Security quantity)

  FRBIS – Forcepoint Remote Browser Isolation Selective - Starter kit (25 licenses)

The RBI starter kit is effectively free for customers compared to purchasing each bundle component individually. Additional FRBIS and/or FRBIF subscriptions may be added at standard list price.

Advanced Threat Protection Email

Forcepoint Email Security Bundle that includes Forcepoint's Advanced Threat solutions. Bundle includes:

  EMSA - Forcepoint Web Email Security (Minimum quantity 100)

  SBXEX - Forcepoint Advanced Malware Detection – Cloud (User count must equal Forcepoint Email Security quantity)

  FRBIS – Forcepoint Remote Browser Isolation Selective - Starter kit (25 licenses)

The RBI starter kit is effectively free for customers compared to purchasing each bundle component individually. Additional FRBIS and/or FRBIF subscriptions may be added at standard list price.

Remote Browser Isolation powered by Ericom

Cloud RBI (RBIF, RBIT) have a mandatory minimum seat volume of 101 seats. For example, a customer with 50 employees will require a minimum of 101 licenses.

On-Premises RBI (RBIOPT, RBIOPF) has a minimum volume of 10 seats.

Fair usage policies:

Remote Browser Isolation Targeted (RBIT, RBIOPT): Fair usage limit to the total number of concurrent browsing sessions for the overall system. Approximately 10% of licensed users may access the RBI service concurrently.

As a guide, a typical use case for RBI Targeted is redirecting to RBI based on three categories including uncategorized.

Remote Browser Isolation Full (RBIF, RBIOPF): The fair usage limit states that the number of total concurrent browser sessions should not exceed double the number of users licensed.

For example, a 1000 User Full Mode license should not exceed 2000 concurrent browsing sessions.

FRBIF – Forcepoint Remote Browser Isolation - Full

Remote Browser Isolation - Full has a mandatory minimum seat volume of 101 seats. For example, a customer with 50 employees will require 101 licenses for RBIF.

Full RBI license covers 100% of licensed users accessing the RBI Service concurrently. Note a fair usage policy applies. For example, if subscription is for 1000 users, 1000 may connect to RBI service concurrently.

There is a fair usage limit covering bandwidth usage and to the total number of concurrent browsing sessions for the overall system.

FRBIF is an optional add on to Cloud Web Security and Cloud Security Gateway.

FRBIS – Forcepoint Remote Browser Isolation - Selective

Remote Browser Isolation - Selective has a mandatory minimum seat volume of 101 seats. For example, a customer with 50 employees will require 101 licenses for FRBIS.

Selective RBI license covers 10% of licensed users accessing the RBI Service concurrently. For example, if subscription is for 1000 users, 100 may connect to RBI service concurrently. This is typically sufficient to cover redirecting web traffic to RBI service for three URL categories, including uncategorized URLs.

There is a fair usage limit covering bandwidth usage and to the total number of concurrent browsing sessions for the overall system.

FRBIS is an optional add on to Cloud Web Security and Cloud Security Gateway.

Forcepoint DLP Suite

Suite license includes DLP Endpoint, DLP Network and DLP Discovery. Does not include DLP Cloud Applications.

Forcepoint Classification powered by Getvisibility

Minimum order quantity is 100 users.

Forcepoint Advanced Malware Detection on-Premises

Forcepoint Advanced Malware Detection (AMD) On-Premises can be used with Forcepoint Web Security (On-Premises)/Hybrid, Forcepoint Email Security (On-Premises)/Hybrid and NGFW appliances (see Network Security Section).

Forcepoint Advanced Malware Detection (AMD) AirGap

Forcepoint Advanced Malware Detection (AMD) AirGap can be used with NGFW On-Premises only.

The Forcepoint AMD AirGap manager can be used with the Forcepoint AMD On-Premises Engine. However, please note the latest version of both must be installed to ensure compatibility.

Support

Modules and product add-ons must have the same level of support as their core product.

With the exception of Forcepoint Behavioral Analytics (UEBA), a minimum of Essential Support is required for every product, regardless of user count.

Forcepoint Insider Threat products require Enterprise Support.

Forcepoint Behavioral Analytics (UEBA) products require either Enterprise Support or a Resident Technical Account Manager.

Essential Support, Enhanced Support, and Enterprise Support are not included with any subscription or perpetual license. Must be purchased as a separate SKU.

Renewals

Same List Prices as above.

Note:

Amounts displayed are suggested end-user prices. The entity that sells the Forcepoint offering to the end-user (e.g. Reseller) is responsible for applying appropriate discount to determine prices. Prices subject to change at any time.

This Price List excludes any VAT, GST, Sales or similar Tax "Sales Tax". Sales Tax will be added to the invoice, at the time of invoice, at the then prevailing rate, in accordance with the local law requirements of the Forcepoint invoicing entity, in the absence of receipt of current certificate of exemption from Sales Tax.

Warranties

Hardware Warranty purchases must have a minimum term length of 12 months, including payment for any lapsed time. Any exceptions to the 12 month term must be approved by Forcepoint management. Extended Warranties may not extend past the End of Life date of the hardware without prior approval. Warranty services require active Support contract through the warranty lifecycle period. For the latest Product Support Lifecycle information, please visit: https://support.forcepoint.com/ProductSupportLifeCycle.

Mini Modules and Transceivers include a 12-month limited warranty from the date of purchase covering defects in workmanship and materials. All other warranties, express, implied or otherwise, are expressly disclaimed.

Network Security Accessories include a 90-day warranty from the date of purchase covering defects in workmanship and materials. All other warranties, express, implied or otherwise, are expressly disclaimed.

Forcepoint Virtual Next Generation Firewalls are subscription based products and priced per physical CPU cores at the host machine (hyper threads are not counted). The licensing is based on the number of allocated virtual CPUs in virtual environments. Number of CPU cores / vCPUs shall not exceed the allowed number of CPUs in the license.

To purchase Remote Browser Isolation with a NGFW product, a valid NGFW URL filtering license is required.

FRBIF – Forcepoint Remote Browser Isolation - Full

Remote Browser Isolation - Full has a mandatory minimum seat volume of 101 seats. For example, a customer with 50 employees will require 101 licenses for RBIF.

Full RBI license covers 100% of licensed users accessing the RBI Service concurrently. Note a fair usage policy applies. For example, if subscription is for 1000 users, 1000 may connect to RBI service concurrently.

There is a fair usage limit covering bandwidth usage and to the total number of concurrent browsing sessions for the overall system.

FRBIS – Forcepoint Remote Browser Isolation - Selective

Remote Browser Isolation - Full has a mandatory minimum seat volume of 101 seats. For example, a customer with 50 employees will require 101 licenses for RBIF.

Selective RBI license covers 10% of licensed users accessing the RBI Service concurrently. For example, if subscription is for 1000 users, 100 may connect to RBI service concurrently. This is typically sufficient to cover redirecting web traffic to RBI service for three URL categories, including uncategorized URLs.

There is a fair usage limit covering bandwidth usage and to the total number of concurrent browsing sessions for the overall system.

Support

A minimum of Essential Support is required for every Forcepoint NGFW and Forcepoint SMC product.

Note:

Amounts displayed are suggested end-user prices. The entity that sells the Forcepoint offering to the end-user (e.g. Reseller) is responsible for applying appropriate discount to determine prices. Prices subject to change at any time.

This Price List excludes any VAT, GST, Sales or similar Tax "Sales Tax". Sales Tax will be added to the invoice, at the time of invoice, at the then prevailing rate, in accordance with the local law requirements of the Forcepoint invoicing entity, in the absence of receipt of current certificate of exemption from Sales Tax.

Warranties

Hardware Warranty purchases must have a minimum term length of 12 months, including payment for any lapsed time. Any exceptions to the 12 month term must be approved by Forcepoint management. Extended Warranties may not extend past the End of Life date of the hardware without prior approval. Warranty services require active Support contract through the warranty lifecycle period. For the latest Product Support Lifecycle information, please visit: https://support.forcepoint.com/ProductSupportLifeCycle.

Mini Modules and Transceivers include a 12-month limited warranty from the date of purchase covering defects in workmanship and materials. All other warranties, express, implied or otherwise, are expressly disclaimed.

Network Security Accessories include a 90-day warranty from the date of purchase covering defects in workmanship and materials. All other warranties, express, implied or otherwise, are expressly disclaimed.

Forcepoint Management Center (SMCX) and Forcepoint Management Center - High Availability (SMCHAX) are subscription based products and priced per node. Customers may continue to renew their support and maintenance for their existing perpetual licenses to SMC, but perpetual licenses to SMC are no longer available for purchase.

Forcepoint Virtual Next Generation Firewalls are subscription based products and priced per physical CPU cores at the host machine (hyper threads are not counted). The licensing is based on the number of allocated virtual CPUs in virtual environments. Number of CPU cores / vCPUs shall not exceed the allowed number of CPUs in the license.

Forcepoint Management Center add-on licenses are subscription based products and priced per installation. One license allows one server usage. Only one Domain subscription is needed per SMC or SMCHA deployment.

To purchase Remote Browser Isolation with a NGFW product, a valid NGFW URL filtering license is required.

FRBIF – Forcepoint Remote Browser Isolation - Full

Remote Browser Isolation - Full has a mandatory minimum seat volume of 101 seats. For example, a customer with 50 employees will require 101 licenses for RBIF.

Full RBI license covers 100% of licensed users accessing the RBI Service concurrently. Note a fair usage policy applies. For example, if subscription is for 1000 users, 1000 may connect to RBI service concurrently.

There is a fair usage limit covering bandwidth usage and to the total number of concurrent browsing sessions for the overall system.

FRBIS – Forcepoint Remote Browser Isolation - Selective

Remote Browser Isolation - Full has a mandatory minimum seat volume of 101 seats. For example, a customer with 50 employees will require 101 licenses for RBIF.

Selective RBI license covers 10% of licensed users accessing the RBI Service concurrently. For example, if subscription is for 1000 users, 100 may connect to RBI service concurrently. This is typically sufficient to cover redirecting web traffic to RBI service for three URL categories, including uncategorized URLs.

There is a fair usage limit covering bandwidth usage and to the total number of concurrent browsing sessions for the overall system.

Support

A minimum of Essential Support is required for every Forcepoint NGFW and Forcepoint SMC product.

Note:

Amounts displayed are suggested end-user prices. The entity that sells the Forcepoint offering to the end-user (e.g. Reseller) is responsible for applying appropriate discount to determine prices. Prices subject to change at any time.

This Price List excludes any VAT, GST, Sales or similar Tax "Sales Tax". Sales Tax will be added to the invoice, at the time of invoice, at the then prevailing rate, in accordance with the local law requirements of the Forcepoint invoicing entity, in the absence of receipt of current certificate of exemption from Sales Tax.

Support

Modules and product add-ons must have the same level of support as their core product.

With the exception of Forcepoint Insider Threat (FIT), Forcepoint Behavioral Analytics (UEBA) and Forcepoint Dynamic Data Protection products, a minimum of Essential Support is required for every product, regardless of user count.

Essential Support, Enhanced Support, and Enterprise Support are not included with any subscription or perpetual license. Must be purchased as a separate SKU.

Renewals

Same List Prices as above.

Note:

Amounts displayed are suggested end-user prices. The entity that sells the Forcepoint offering to the end-user (e.g. Reseller) is responsible for applying appropriate discount to determine prices. Prices subject to change at any time.

This Price List excludes any VAT, GST, Sales or similar Tax "Sales Tax". Sales Tax will be added to the invoice, at the time of invoice, at the then prevailing rate, in accordance with the local law requirements of the Forcepoint invoicing entity, in the absence of receipt of current certificate of exemption from Sales Tax.
