MY*Presidio*

Integrating your eProcurement system with Presidio makes transacting business seamless.

CHALLENGE

You receive a Presidio quote with numerous lines, now you must spend time copying and pasting the items into your requisition tool. Wouldn't it be nice if you could automate that process? A punchout integration with MyPresidio Portal is the solution!

OUR SOLUTION

Presidio has worked with many customers to help connect to a punchout and enjoy the benefits of an automated procurement process. We offer access to a private, secure website from within your eProcurement application. Connecting your eProcurement system with MyPresidio will not only help streamline the purchasing process but also allow users to see their orders and track shipments. Invoices can be uploaded to the various platforms, or you can maintain the process you currently use.

KEY BENEFITS

- Streamline order processing

- Improve speed and accuracy of purchasing

- Easily "Transfer" a Presidio quote back to your eProcurement system

- Automatically generate a purchase requisition or purchase order and route it for approval

- Send a PO via XML or Email
