Microsoft Fabric
QuickStart

THE CHALLENGE

Organizations are under pressure to modernize their data platforms to keep pace with business agility, analytics demands, and AI innovation. To achieve improved business insights, increase data security, add scalability, and support AI-driven business, organizations are looking to adopt a modern data platform without the risks of investing months or years to reach their first value-focused results.

THE SOLUTION

Unlock the full potential of your Data Investments with Presidio's Microsoft Fabric QuickStart. Our approach provides an agile deployment of the modern data platform using Microsoft Fabric. We set up the data platform, provide the controls and guardrails, configure the first data pipeline and an AI or PowerBI report to provide an end-to-end data solution. The result: an agile data platform to drive AI and business initiatives that grow with the business.

KEY BENEFITS

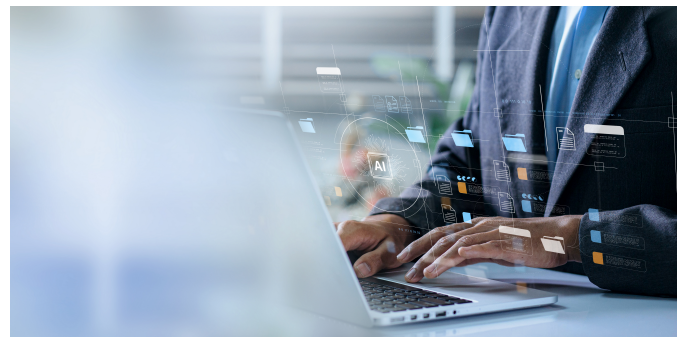

Presidio's Microsoft Fabric QuickStart provides the following benefits:

- ◆ **Improve Data-driven decision-making:** Empower users with trusted, timely insights and democratized data insights
- ◆ **Future-focused data strategy:** Align the platform to support business needs for AI, innovation, and real-time analytics while offering efficient data management and compliance.
- ◆ **Improved Customer Insights:** Enables advanced analytics and AI models that drive personalization, churn prediction, and product optimization.
