

Cyber Security

Cisco XDR Implementation Services

THE CHALLENGE

Security teams are drowning in noisy tools, siloed telemetry, and half-implemented platforms. Cisco XDR is purchased but not fully deployed, integrations are inconsistent, and SOCs still pivot between consoles while attackers move faster. Leadership wants measurable reductions in risk, not another unfinished platform project.

Turn Cisco XDR into a high-value, cross-domain detection engine in weeks, not months.

THE APPROACH

Two complementary service models designed for speed & maturity.

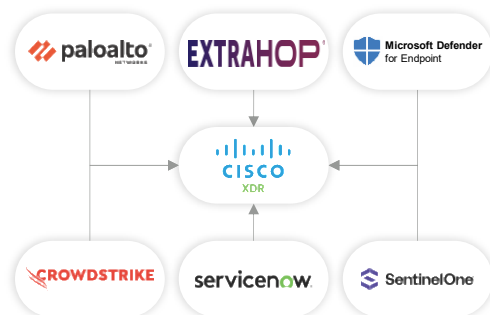

QuickStart (≈6 Weeks)

- ◆ Rapid deployment of Cisco XDR
- ◆ Enable prioritized data sources
- ◆ Activate out-of-the-box detections
- ◆ Establish foundational visibility and response

Standard Services

- ◆ Deep discovery, HLD/LLD architecture
- ◆ Expanded integrations (endpoint, network, identity, email, cloud, DNS)
- ◆ Custom playbooks and automation
- ◆ SOC workflow alignment + compliance-driven use cases

Presidio designs Cisco XDR as the backbone of security operations — not another point product.

Cisco XDR unifies the security ecosystem to deliver faster, smarter, and more coordinated threat detection and response.

Cisco XDR Implementation Services

KEY BENEFITS

Operational XDR, Not Shelfware:

- ◆ Prioritized telemetry coverage across all major domains
- ◆ Unified investigation views + curated dashboards
- ◆ Reduced alert noise and automated SOC workflows

Accelerated Time to Value

- ◆ Fixed-scope QuickStart for speed
- ◆ Modular Standard SKUs for flexibility without scope creep
- ◆ Reusable IP: HLDs, LLDs, validation plans, runbooks

SOC-First Design

- ◆ Built around real detection and response workflows
- ◆ Consistent logging, correlation, and evidence trails
- ◆ Improved analyst productivity + stronger compliance posture

A Clear Roadmap

- ◆ From initial deployment to MXDR, SASE, SOC modernization, and broader Cisco adoption

WHY PRESIDIO

Presidio is here to guide your digital journey and help you navigate the fast-changing tech landscape. As the bridge between where you've been (foundational IT) and where you're going (ultra-modern AI and cloud services), we measure success in your terms. We strive to build lifetime relationships with those that give us their business, and we do so by being fearless, fast, flexible, and compassionate. It's our mission to earn your trust and deliver innovative, high-quality results at the speed your business needs to succeed.

Cisco XDR delivers real operational value only when it is purposefully deployed, deeply integrated, and aligned to how your SOC defends the business. Presidio's structured approach — from QuickStart acceleration to modular Standard Services — delivers an outcome-driven XDR platform rather than another underutilized tool. If you're ready to turn your Cisco XDR investment into measurable reductions in risk and analyst workload, connect with Presidio to scope the right engagement for your environment.
