Asset Management powered by ServiceNow

THE CHALLENGE

Enterprises struggle to manage increasingly diverse assets across physical, virtual, cloud, and AI environments, as traditional hardware-focused approaches fail to keep pace. The result is fragmented visibility, higher compliance risks, inefficient resource use, slower issue resolution, and missed opportunities to optimize costs and strengthen resilience.

THE SOLUTION

Asset Management powered by ServiceNow transforms asset management by unifying all asset types in a single CMDB, centralizing real-time visibility, automating governance and compliance, linking performance to business outcomes, and leveraging AIOps and analytics for proactive issue resolution and actionable insights.

KEY BENEFITS

- ◆ **40–60% Improvement in Asset Inventory** completeness, enabling better decisions and governance
- ◆ **50% Reduction in Audit and Compliance Risk** via automated lifecycle controls
- ◆ **30% Faster Deployment of AI** models and digital services
- ◆ **60–80% Reduction in Mean Time to Resolution (MTTR)** through proactive remediation
- ◆ **70% Decrease in Incident Volume** via early detection and automation
- ◆ **3–5x Faster Realization of ServiceNow ROI** through optimized platform usage and managed service enablement
