

PRESIDIO OPTIMIZATION SERVICES**FinOps Assessment**

The Presidio FinOps Maturity Assessment provides a structured evaluation of an organization's cloud financial management practices based on the FinOps Foundation framework and custom data models. It helps organizations understand their current FinOps maturity level and identify key areas for improvement. The assessment covers these core capabilities: Data Ingestion, Allocation, Reporting & Analytics, Anomaly Management, Budgeting, Forecasting, Cloud Policy & Governance, Rate Optimization, Workload Optimization, and Unit Cost Economics.

WHAT IS IT

A Presidio Certified FinOps Architect and Data Analyst will conduct a no-cost assessment, evaluating your FinOps maturity through interviews and analysis of your cost and usage data.
