

PRESIDIO®

Scale with confidence, evolve with intelligence

Presidio supports organisations already using Apple devices to take your strategy to the next level. Ensure deeper integration, broader adoption, and greater business value.

Whether you're expanding Employee Choice across new locations, strengthening security posture with a more advanced Mobile Device Management (MDM) framework, or simplifying device operations through Device-as-a-Service (DaaS), Presidio help you to scale with precision and evolve with purpose.

With Presidio's expert guidance and end-to-end support, your Apple investment becomes a catalyst for wider digital transformation, from enabling hybrid work to driving sustainability, enhancing security, and increasing workforce satisfaction.

Extend Impact across the organisation

Presidio enable seamless integration with cloud platforms and identity services, ensuring that your Apple device deployments are connected, compliant, and collaborative. Whether you're digitising frontline operations, or scaling new ways of working, Presidio provides the expertise to turn ambition into action.

Why Apple devices

- ✓ Exceptional **user experience** drives productivity
- ✓ **Lower total cost** of ownership
- ✓ Built-in **security at every level**
- ✓ **Flexible deployment** with zero-touch provisioning
- ✓ Employee choice **boosts retention and satisfaction**
- ✓ **Consistency** across hardware and software
- ✓ **Future-ready** performance

Apple at Work

Core services from Presidio

Presidio's services are designed to support your organisation throughout the full lifecycle of Apple device adoption. Our structured approach ensures consistency, flexibility, and scale across every stage:

Full lifecycle device management

Take care of the entire device lifecycle, from procurement and provisioning through to support, refresh, and secure retirement. Our services reduce the internal IT burden and keep your workforce productive and secure.

Zero-touch deployment with Apple Business Manager

Apple Business Manager and MDM enable zero-touch deployment at scale. Devices are enrolled, configured, and shipped ready-to-use, so users can get started immediately with minimal effort.

**Premium
Business Partner**

Secure deployment at scale

Our deployment frameworks ensure devices are not only delivered efficiently but integrated securely into your environment. We align to your compliance and security policies to reduce risk and improve governance.

MDM: fully managed service

Presidio delivers ongoing management and optimisation of your MDM platform, keeping policies current, devices up to date, and vulnerabilities in check. We make managing thousands of Apple devices as simple as managing one.

Remote device provisioning & ready-to-use devices

We provision devices remotely and deliver them fully configured to employees, no matter where they are. This supports flexible workstyles and accelerates time-to-productivity.

Custom application development and integration

Whether you need bespoke apps for specific roles or seamless integration with existing tools, our development and integration services tailor Apple devices to your unique needs.

Flexible procurement with Apple Financial Services (AFS)

Through our partnership with AFS, we help you procure devices in a way that aligns with your financial goals. Whether it's subscription-based, leasing, or consumption-aligned, we give you options.

Device-as-a-Service (DaaS)

Presidio offers a consistent, subscription-based Apple experience that includes hardware, support, and services in one simple model. It's scalable, predictable, and cost-effective.

Secure, scalable, supported

Presidio's approach is underpinned by security, scalability, and hands-on support. We understand the demands of hybrid work, decentralised teams, and rapid change. That's why we build in compliance, monitoring, and manageability from the outset.

Modern devices to modern work

Apple devices are part of a bigger picture: transforming how people work. By pairing intuitive, high-performance devices with the right deployment model, support framework and management tools, Presidio enables a smarter, more human way to work.

We support initiatives across:

- ✓ Hybrid and remote enablement
- ✓ Digital workplace modernisation
- ✓ Workstyle transformation and user-centric IT
- ✓ Workforce productivity and retention
- ✓ Sustainability and cost-efficiency

Our support ensures Apple delivers not just IT benefits, but cultural, operational, and strategic value.

Built for the long-term

Build out your Apple roadmap, Presidio helps you grow with confidence. Presidio meet you where you are and help you plan, scale, and optimise for the future.

You've made the investment. Now let's make it a competitive advantage.
