Immersive AV Room Packages

THE CHALLENGE

Hybrid meetings fail when in-room technology does not treat remote participants as equals. Cameras miss the speaker, microphones do not reach the table, every room behaves differently from floor to floor, and bespoke designs take months to engineer and deploy — leaving IT supporting dozens of one-off AV configurations.

THE SOLUTION

Pre-engineered, platform-certified room packages across nine tiers — fixed scope, repeatable, ready to deploy.

- ◆ **Ideation Space (Board 55 / 75):** All-in-one interactive display with built-in whiteboarding for focus and ideation rooms.
- ◆ **Huddle Room (2–4 people):** 55" display, All-in-One video bar
- ◆ **Small Conference (4–6 people):** 65" display, All-in-One video bar
- ◆ **Medium Conference (6–10):** 75" display. Enhanced All-in-One video bar. Optional table microphone
- ◆ **Large Conference (10–18):** 85" display, Integrated Room Solution.
- ◆ **XL Conference (18+):** 98"–115" display, Integrated Room Solution
- ◆ **Training Room:** 115" display, Integrated Room Solution
- ◆ **Divisible Room:** Full kit per side, auto-config Integrated Room Solution
- ◆ **21:9 Immersive:** 105" ultrawide

KEY BENEFITS

- ◆ **Equal Experience for Every Participant:** AI auto-framing cameras and beamforming microphones give remote attendees the same seat at the table.
- ◆ **Repeatable and Fast to Deploy:** Fixed-scope BOM plus professional services, with Tempo pre-staged mounts for rapid install.
- ◆ **Standardized at Portfolio Scale:** One consistent experience across floors and sites, natively certified for Microsoft Teams, Webex and Zoom.
