WORKSHOP

PRESIDIO® Lighthouse

AI Governance Strategy Workshop

Accelerate impact with AI governance you trust.

The AI Governance Strategy Workshop is a one-day executive engagement that establishes how AI will be governed across the enterprise. Presidio aligns leadership on AI strategy, risk appetite, and ownership, recommends a governing structure, and prioritizes the six core governance components into a phased roadmap, positioning governance as the trust layer that accelerates AI value rather than slowing it. AI is spreading across organizations faster than they can establish the operating model, policies, and guardrails to protect and enable it. This workshop establishes the governance direction, accountability, and priorities needed to build trust in AI.

WHO SHOULD PARTICIPATE

The workshop aligns executive and cross-functional stakeholders on a unified AI governance model.

- **Direction and Risk Appetite:** Whoever sets overall risk tolerance and can make priorities stick, often CEO/ COO
- **Ownership and Accountability:** Whoever is accountable for AI governance, often the CDO or CAIO
- **Security and Control:** Whoever owns AI-specific security, incident response, and technical safeguards, often CISO
- **Risk, Compliance, and Legal:** Whoever owns audit readiness and the legal or regulatory exposure, often the Chief Risk & Compliance Officer or General Counsel
- **Business Exposure:** Someone with awareness of ungoverned AI, often a COO or business-unit lead

KEY WORKSHOP OUTPUTS

- **Governance Baseline:** Current-state assessment across the six core governance categories
- **AI Vision and Risk Tolerance:** A ratified vision statement and domain-by-domain risk matrix
- **Operating Model Recommendation:** A named owner, council, or hybrid, with decision rights and reporting line
- **Governance Roadmap:** Prioritized near-, medium-, and long-term actions with owners
- **Executive Readout:** Follow-on plan and next steps

WORKSHOP TOPICS

The discussion focuses on the decisions, structures, and controls needed to govern AI at scale.

- **AI Strategy and Risk Appetite:** Aligning leadership on AI strategy, risk appetite, and governance priorities for internal and customer AI
- **Governance Ownership:** Defining governance ownership and accountability
- **Governing Structure:** Recommending a structure, such as an AI Board or Center of Excellence, with decision rights
- **Core Governance Components:** Assessing the current state maturity (e.g., policies and procedures, accountability, data quality, risk and compliance) and identifying gaps
- **AI Oversight and Response:** Reviewing the AI tool inventory, including shadow AI, and response readiness
- **Regulatory Alignment:** Anchoring the approach to ISO 42001, the EU AI Act, and the NIST AI Risk Management Framework, then prioritizing the roadmap

WORKSHOP BENEFITS

- **Shared AI Direction:** Align leadership on AI strategy and governance priorities
- **Clear Accountability:** Define risk appetite, governance ownership, and decision rights
- **Greater Trust:** Give leaders confidence in AI outputs and the ability to scale
- **Faster Adoption:** Position governance as an accelerator of adoption and ROI
- **Regulatory Readiness:** Prioritize governance work against ISO 42001, the EU AI Act, and NIST
- **Practical Governance:** Turn fragmented policies into clear accountability and prioritized action

AI Governance Strategy Workshop

ABOUT PRESIDIO LIGHTHOUSE

We understand the AI journey because we've walked it ourselves. Presidio AI Studio gave us firsthand experience adopting, governing, and scaling AI, with 1,500+ employees enabled with agentic workflows, 92B+ tokens processed, and a 31% reduction in session costs. That experience shapes how we advise customers before proposing technology.

Presidio Lighthouse builds on that foundation, combining deep AI expertise with a commitment to real outcomes. We work alongside customers throughout their journey, aligning people, process, and technology to clarify priorities, build the right architecture, implement solutions, and support scale.

Presidio Lighthouse Advisory holds that alignment together across business stakeholders, IT architecture, Presidio delivery teams, and managed services, keeping everyone focused on shared outcomes, measuring results, and using those insights to determine what comes next.

OUR AI POINT OF VIEW

When you partner with Presidio, we show you where AI creates value, how organizations should build and govern AI, and how to scale it safely. Start anywhere.

- **Clarify**
  Find where AI creates value. Prioritize the highest-impact cases.
- **Realize**
  Ship AI that works for you. Governed, deployed, and built for your data.
- **Scale**
  Roll AI out across your organization without losing control.

WHY PRESIDIO

Presidio is here to guide your business transformation journey by helping you carefully navigate the fast-changing tech landscape. As the bridge between where you've been with foundational IT, and where you're going with modern AI and cloud services, we measure success with you on the terms you define. We strive to build lifetime relationships with each of our customers, and we do so by being fearless, fast, flexible, and compassionate. It's our mission to earn your trust and deliver innovative, high-quality outcomes at speeds once thought not possible, so you can achieve your business goals faster.

Align your AI strategies today with Presidio.
Most AI initiatives stall for organizational reasons, not technical ones. Presidio's workshops align strategy, operations, and architecture upfront, turning AI ambition into a clear roadmap. Sessions like AI Priorities Workshop, AI Future Visioning, and AI Governance Strategy focus efforts aligned to your business outcomes.
